The following editorial from the "News Letter," the official organ of the National Association, was read from the outrent issue of that paper:

"Post A, of Richmond, Va., has evolved from the brains of its, members a brilliant idea. For one day, and one day only, the Post has purchased a daily newspaper, the Richmond Times-Dispatch, and it is going to run it—not on the plan of Dr. Shedon, of Kansas, but newspaper, the Richmond Times-Dispatch, and it is going to run it—not on the plan of Dr. Sheldon, of Kansas, but as a T. P. A. man would run it. It will be a scorcher, say Post A members, such a scorcher that the printer's ink will seethe and Bubble as the hot type passes under the ink rollers. And the editors, they are all T. P. A. members for that one day—are such that if dear old Horace Greeley could arise in his shroud and see them at work he would certainly drop dead again, And the business managers and the business office attaches for the day are also T. P. A. people, and what they will do to that newspaper for that one day will probably startle the entire newspaper world out of its blase desuctide into real interest. The progenitors of this novel idea in Post A. of Richmond, promise thomselves that they are soing to make \$2,000 or more for their Post treasury, and they are willing to tell any other T. P. #### **NEGRO CRUM ASSUMES** CHARGE IN CHARLESTON

(By Associated Press.)
OHARLESTON, B. C., March 81,-W. D. CHARRIESTON, S. C., March SI,—W. D. Crum took charge of the Custom House to-day as collector of the port, having taken the oath of office last night. There was no incident of interest in confliction with the assuming of office, except the immediate tender of resignation by the chief inspector of customs, which had been placed in the hands of the deputy collector to take effect upon theodored official's entrance to authority.

There has been talk here of possible application to the courts for restraining order against Crum's exercise of the duties of office, alleging that the President may not fill vacancies except with the advice and consent of the Senate, where the Senate has had opportunity to pass upon nominations as was the case with the Crum appointment.

It is understood that the matter has been brought to the notice of the Mayor, and it is said he has referred it to the

corporation counsel for consideration and report, but it is not thought that anything will be done about it.
